E PRASHANTH REDDY

B.Tech Graduate — Information Technology, IIIT Vadodara

+91-6301874080 — erangariprashanthreddy@gmail.com — LinkedIn — GitHub — Portfolio

SUMMARY

Enthusiastic Information Technology graduate with a strong foundation in software development, machine learning, and full-stack web technologies. Proven ability to design, build, and ship production features including React.js and JWT-secured APIs. Experienced in leading development teams, building SaaS solutions, and developing software for real-world transport and fleet management operations. Eager to bring a collaborative, detail-oriented approach to a team that values continuous learning and clean engineering.

PROFESSIONAL EXPERIENCE

Software Development Engineer — AnyTime Diesel, Hyderabad *Feb 2026 – Present*

- **Led the team in designing and developing a SaaS platform for TSRTC (Telangana State Road Transport Corporation)**, overseeing development and successful implementation of the software solution.
- Worked closely with the TSRTC team to understand requirements, coordinate development activities, and deliver software solutions aligned with operational needs.
- Developed fuel management and fleet tracking solutions integrating IoT, GPS/OBD, and fuel-level sensors.
- Built automation workflows, dashboards, and Google Apps Script solutions for operational reporting and fuel tracking.
- Designed, tested, and deployed software features to improve operational efficiency, data accuracy, and reporting.

Software Developer — Cadware Limited, London, UK (Remote) *Jul 2025 – Jan 2026*

- Designed and deployed new features for a real estate platform supporting property listings, purchases, and rentals, secured with JWT authentication.
- Enhanced frontend user experience with React.js, contributing to a 30% increase in user retention.
- Continuously shipped new modules, bug fixes, and performance improvements.

Web & API Developer — Bluestock (IPO Web Application & REST API) *May 2025 – Jul 2025*

- Designed and developed a web application and RESTful API for Bluestock's IPO management platform.
- Implemented secure user authentication, IPO listing features, and real-time data handling.

Data Analytics Intern — Zidio Company *Feb 2025 – Apr 2025*

- Analyzed and interpreted complex data sets to drive business insights and informed decision-making.

Artificial Intelligence Intern — Internship Studio *Aug 2024 – Sep 2024*

- Explored AI and ML models and completed a hands-on machine learning project.

PROJECTS

- **Arogya Mitra App (App Development)** — Built with Flutter.
- **Hospital Management System (Web Development)** — Built with React, Python, and MySQL.
- **IPL Prediction (Machine Learning)** — Built with Python.
- **Student Portal Website (Web Development)** — Built with the MERN stack.
- **Face Recognition (Machine Learning)** — Built with Python.
- **Magic Cloak (Machine Learning / AR)** — Built with OpenCV and AR techniques.

TECHNICAL SKILLS

Languages: Java, C, Python

Web: HTML, CSS, JavaScript (basics), React.js, MERN Stack

Data & ML: SQL, MongoDB, Machine Learning, Agile Methodology

Mobile: Flutter

Core Strengths: Communication, Leadership, Fast Learner, Time Management

EDUCATION

B.Tech, Information Technology — IIIT Vadodara *2022 – 2026*

Narayana Junior College, Hyderabad, Telangana — XII (94.8%) *2020 – 2022*

New Rishi High School, Mahabubnagar, Telangana — X (CGPA: 10) *2019 – 2020*

CERTIFICATIONS

- Machine Learning using TensorFlow — Infosys Springboard
- Python for Data Science — Infosys Springboard
- Python Fundamentals — Infosys Springboard
- Java and C Programming; Hackathon Finalist — VNRVJIET Krithathon
